2. Differences in vocational education vs Academic education.

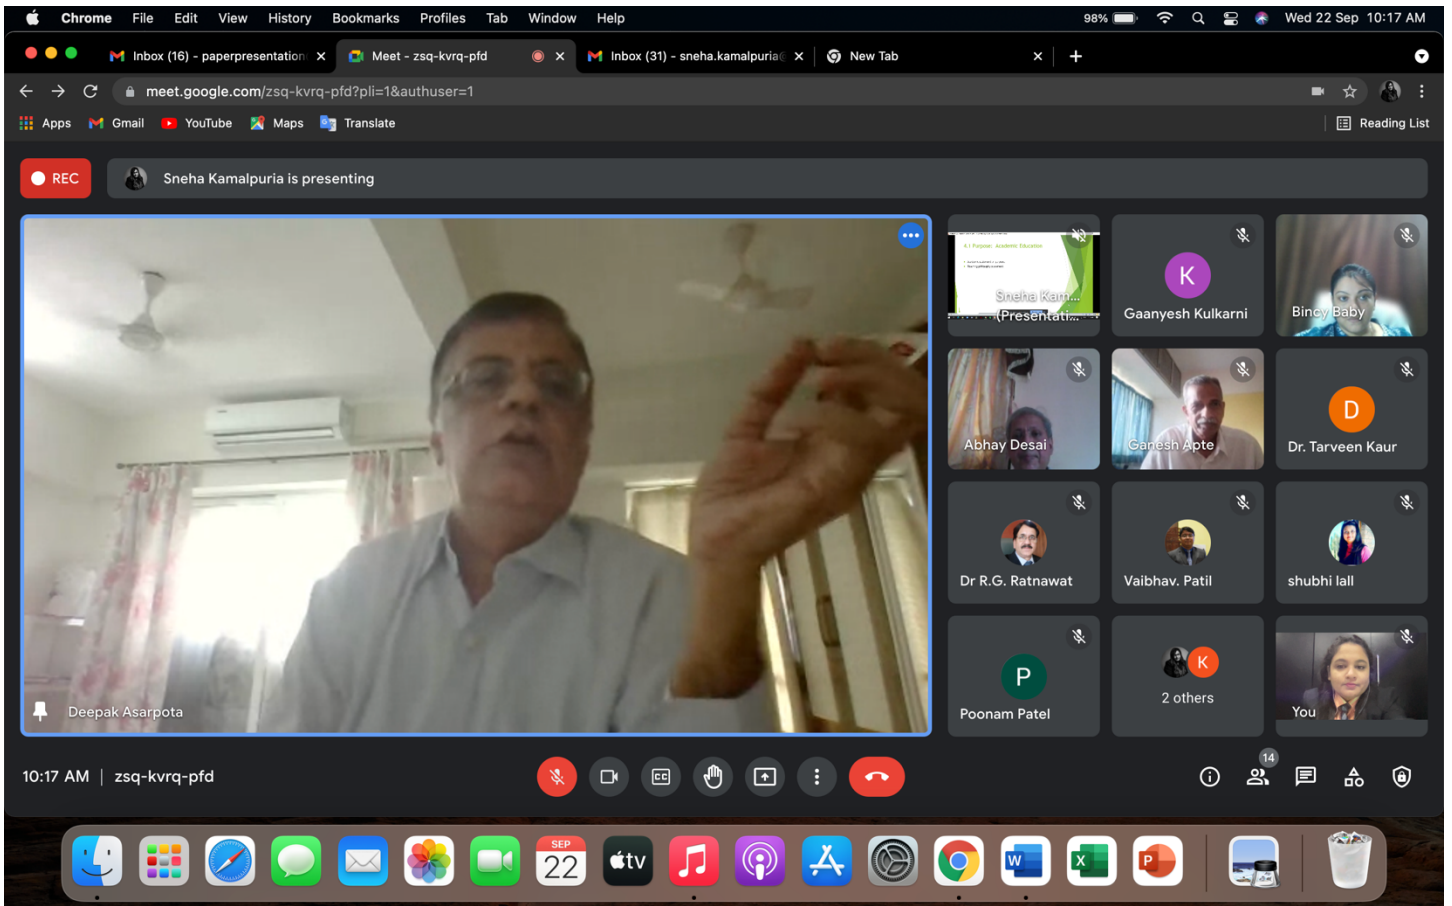

- ▶ Vocational—attendance is stronger as skills are learnt through: Learning by doing. In Academic, fewer contact hours as dependency is on students who go away and read and do research.
- ▶ Vocational—Hands on training. Academic: attendance is through dozens of other students, focus is more on a variety of subjects.
- ▶ Vocational: Time well spent with colleagues, teammates. Academic: Time spent on research activities, conduct activities to achieve a desired objective.
