

ACTION TAKEN REPORT 2023-24

 Stakeholder: Students

 No. of students participated in feedback: 120

Sr. No	Suggestions	Action Taken
1.	Sessions could be more interactive	Varied teaching pedagogies are introduced in form of case studies and stimulation to make it more interactive
2.	Having some guest sessions for every specialization	Value added courses are designed for all the semesters
3.	There should probably 2 lectures for 3 hours rather than 3 lectures for 2 hours	Time table was made accordingly of 2 sessions per day of 3 hours each
4.	Certification and IV should be included	We are planning industrial visits every year and outbound activity is also planned for students to give them exposure
5.	Ppt's should be provided on timely basis after the completion of each topic	Faculties provides ppt to students or upload that on drive and share it with students after completion of each topic
6.	Complete the syllabus in proper time	There are slots for faculties who need extra session for completion of the course. Its ensured its completed within stipulated time

Stakeholder:

Alumni

No. of students participated in feedback:

62

Sr. No	Suggestions	Action Taken
1.	Practical knowledge should be shared more	The institute has made MOU'S with the various companies in order to give more exposure to students as how they function
2.	Placement to be provided to more students	There was 100% placement in last batch
3.	More companies should be invited to college for placements	We are organizing various industry interaction events to increase connects and invite them for placement
4.	More corporate exposure should be provided	Expert sessions are arranged specialization wise for all the students
5.	Advance excel and all the promised extra essential skills can be prioritised. More Case studies and activities can be arranged. Activities related to industry challenge can be prioritised.	Advance excel certification was sponsored by college and is made compulsory for every student to attend and appear for exam

ACTION TAKEN REPORT 2023-24

Stakeholder:

Faculty

No. of faculties participated in feedback:

10

Sr. No	Suggestions	Action Taken
1.	In the case of ICT facility, we need a dedicated PC or laptop for the faculty in the Mock stock room along with internet connection facilities	Mock stock room is properly connected with internet and all the PC's are in proper working condition.
2.	Research environment must be promoted	Faculty student collaboration with other faculties is done during research conference for various paper presentations.
3.	Support should be given for future growth and development	Faculties are encouraged to participate in workshops and seminars outside to enhance their knowledge which is beneficial for their as well as students development
4.	Faculty picnic should be arranged	All faculties are given chance to go for outbound activities and industrial visits along with students to have some refreshing time for themselves.
5.	Performance appraisal on the basis of KRA's should be implemented	Every week faculties fill the weekly sheet mentioning their achievements, lecture load and other KRA's. It is evaluated and analyzed by the director.

ACTION TAKEN REPORT 2023-24

Stakeholder:

Employer

No. of employers participated in feedback:

51

Sr. No	Suggestions	Action Taken
1.	Improve interpersonal skills	Various sessions are arranged on regular basis for the same.
2.	Need improvement in decision making or improvement required on manpower handling	New teaching pedagogies are adopted by faculties in the classroom which includes various simulation activities which help students to strengthen decision making in real time scenarios.
3.	Self-motivation for learning needs to be inculcated. Technical skills (if finance field chosen), have to be specially addressed.	Guest lectures by esteemed professional from diverse fields are arranged for students for all the specialization to give them indepth idea about technical skills required in the industry.
4.	If possible give them a small exposure to real time business scenario's	We give them various live projects opportunities and internship for understanding the business scenarios.
