02:00 PM - 04:00 PM DECEMBER

About Python Training Programme

With the advent of Data Analytics, students are expected to join some additional certification programmes or training programmes to learn new technology. Keeping the same thought in mind, Dr Shubhi Lall Agarwal was invited to conduct a *Two Days Python Training Programme* in Hybrid mode in AIIT,Mumbai.

The students were taught to understand the Python Programming with Anaconda software and Jupyter notebook. They were given the overview of csv files and its loading in python. The students could easily apply filters and project the database views after applying the commands.
